Council Variance Application

STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A.** Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B.** Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Please see attached.

CV21-150

STATEMENT OF HARDSHIP

APPLICATION: CV21-150
ADDRESS: 199-201 East Markison Avenue
PARCEL: 010-023249
ZONED: R-2F
APPLICANT: John Fonner
OWNER: John Foner
ATTORNEY: David Hodge, Underhill and Hodge LLC
DATE: December 28, 2021

This property is located at 199-201 East Markison Avenue, on the south-east intersection of East Markison Avenue and South 6th Street. The property is zoned R-2F and developed with a duplex. The property is bordered by property zoned R-2F on the north, south, and east, and west.

The property is not within a historic district, commercial overlay, nor planning overlay. The property is within the boundary of the Columbus Southside Area Commission and the Southside Plan. The Plan recommends medium-high density (10-16 units per acre) residential use. This is a classification which supports a variety of dwelling types including doubles, townhouses, and multifamily.

The Applicant proposes the construction of one new residential unit on the second floor of the existing three car garage. This is a project which complements adjacent residential properties and allows the property to develop in a manner which is consistent with the Southside Plan. To permit the development as proposed, the Applicant requests the following variances:

1. Section 3312.49 - Minimum number of parking spaces required. Applicant requests a variance to reduce the minimum number of required parking spaces from 6 to 3.
2. Section 3332.037 - R-2F residential district requirements. Applicant requests a variance to permit three single-unit dwellings on one lot with reduced development standards in the R-2F.
3. Section 3332.05(A) - Area district lot width requirements. Applicant requests a variance to reduce the minimum lot width in an R-2F district from 50 feet to 43 feet. This is an existing condition.
4. Section 3332.14 - R-2F area district requirements. Applicant requests a variance to reduce the R-2F area district requirements to allow three single-unit dwellings on one 5,781 square foot lot.
5. Section 3332.19 - Fronting on a public street. Applicant requests a variance to allow the carriage house to front on the public alley.
6. Section 3332.21 - Building lines. The Applicant requests a variance to reduce the minimum building line from 25 feet to 19 feet. This is an existing condition.
7. Section 3332.25 - Maximum side yard permitted. Applicant requests a variance to reduce the maximum combined side yards required from 8.6 feet to 7.2 for existing structure and proposed carriage house.
8. Section 3332.26 - Minimum side yard permitted. Applicant requests a variance to reduce the minimum side yard from five feet to 3 feet for existing structure and proposed carriage house.

9. Section 3332.27 Rear yard requirement. Applicant requests a variance to reduce the minimum rear yard required from 25 percent of the total lot area to zero percent of the total lot area for the proposed carriage house.

A hardship exists because the Applicant cannot develop the property in a manner consistent with the land use plan while still conforming to the underlying zoning district established by the City's Zoning Code. Applicant's requested use variance will not adversely affect the surrounding property or surrounding neighborhood. The requested use variance will not impair supply of light or air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, nor unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

Further, a practical difficulty exists because Applicant cannot develop the property as proposed while still meeting the underlying development standards established by the City's Zoning Code. Applicant's requested area variances will not seriously affect any adjoining property or the general welfare. Strict application of the R-2F standards neither work for the property as built, nor may they be appropriately applied to this proposed addition.

The requested area variances will not cause adjacent properties any detriment or substantially alter the character of the neighborhood. Reduced lot standards, reduced side yards, and garages that are located near the rear property line are common conditions within this neighborhood.

The Applicant respectfully requests the Columbus City Council weigh these factors in its consideration and find that this Applicant suffers from a practical difficulty. The variances will not seriously affect any adjoining property or the general welfare. Further, the spirit and intent behind the zoning requirements would be observed and substantial justice done by granting the requested variances.

Respectfully submitted,

David Hodge
