My signature attests to the fact that the attached application package is complete and accurate to the best of my knowledge. I understand that the City staff review of this application is dependent upon the accuracy of the information provided and that any inaccurate or inadequate information provided by me/my firm/etc. may delay the review of this application.

STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A. Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

A variance is being requested for the height of the garage; 3332.38(G), Private garage: To increase the allowable height of a detached garage from 15 feet to 22'-11.5", and for the occupation of the garage; 3332.38(H), Private garage: to allow habitable space next to and in the second story of a detached garage. As well as a detached garage (and any stairs) need to be at least 3' from the side property lines, 3332.26(E). The existing home is only 1147 square feet and with growing family and caring for a disabled parent they do not have enough space. Since Covid, working from home in existing home has been a challenge and with newly build office space it will eliminate many of the challenges (e.g. space to have office, storage and gym space).
